

# Process Safety Management (PSM)

## PROCESS SAFETY MANAGEMENT

Jakarta, 13 – 15 Februari 2018  
Jakarta, 2 – 4 Mei 2018  
Jakarta, 12 – 14 September 2018  
Jakarta, 19 – 21 Desember 2018

This training process safety management provides an in-depth study of each PSM element. The training process safety management course introduces each PSM element and the specific guidelines for integrating PSM element requirements into other corporate programs and evaluating program compliance throughout the implementation phase.

### What You Will Learn on this Training Process Safety Management :

- To interpret the performance-based requirements of the U.S. OSHA PSM and EPA risk management standards, as well as learn about related industry standards
- The elements of process safety that are missing from typical PSM systems, including Human Factors elements (communication, human system interface, work environment, staffing, and fitness for duty), Facility Siting element, Project Risk Management, Senior Leadership & Accountability. - The Risk-Based Process Safety (RBPS) guide (2007) from CCPS/AIChE is reviewed so you can understand how to close critical gaps
- Multiple options for implementing an effective need-specific program
- Specific guidelines for developing cost effective written programs tailored for each PSM element, whether for a single facility or a corporation
- How to avoid costly implementation mistakes
- Jargon for communicating PSM requirements to others throughout the organization
- How to develop written programs to meet PSM requirements
- How to incorporate and integrate the PSM element requirements into other corporate programs (other corporate management systems)
- Key performance indicators
- How to evaluate program compliance throughout implementation
- How to begin implementation at your company
- Additional training necessary for implementation of specific elements
- The course uses actual and generic case studies, including several video-based case studies
- To illustrate interpretations of PSM requirements
- To demonstrate developing an effective PSM program that can be adapted for your facility

### WHO SHOULD ATTEND?

Managers – Operations, Safety, and Executive  
Engineers – Process, Safety, and Mechanical
